1960

Post Office Box 727

Valley Center, California

GREETINGS FOR 1960

Another year and we send our best wishes to all iris lovers. We have had more iris in bloom this past fall and winter than ever before. Not much rain but evidently the right amount at the right time and warm enough to bring up the bloom stalks. I'll mention it in the description of these iris so perhaps others of you who have mild winters will want to try some and hope for this extra bloom between September and January.

The past year has been a busy one for us. We sold our frontage on the highway, for business, and are moving our iris to new fields farther back and up the hill where we have built a new home, from which we enjoy a beautiful view.

We extend an invitation to all to visit us, especially at iris blooming time, April and May, with our peak bloom about May 1st.

Valley Center is in San Diego County in Southern California, 9 miles N.E. of Escondido on the road to the famous Palomar Observatory, which is 21 miles from here. We are on the main road, look for our sign and drive in. Our new fields are about 2 blocks back from the highway. Garden Club groups are especially welcome but we would appreciate knowing in advance when you would like to come.

Our new fields are smaller, so we must reduce our stock. Note our lower prices this year, most are from a third to a half or more less than the regular price.

In spite of another raise in Parcel Post rates, we will pay the postage on all orders of \$5.00 or more.

We wish to thank all our customers for their splendid orders and nice letters of appreciation. Wish we could answer each one personally, but time forbids. We hope also to be able to serve you again this year. To prospective new customers, take advantage of these low sale prices and try some of our iris. Satisfaction is guaranteed.

Sincerely yours,

Mrs. Frances J. Lawson

TERMS OF SALE

CASH with order, check, draft or money order. California residents please add 4% sales tax. No C.O.D. shipment.

POSTAGE PAID on orders of \$5.00 or more. On smaller orders add 50¢ to help with the expense of packing and postage.

SPECIAL POSTAGE OFFER - If your order amounts to \$5.00 or more, and if you include \$1.00 toward postage and packing, we will send you an extra iris, of our choice, listed at \$2.00 or more.

SHIPPING starts July 1st and orders will be shipped in rotation as received unless special shipping date is required. We appreciate your telling us the best time to ship to your location. We can ship in the spring if necessary.

GUARANTEE - We have a "Pinto Tag", the highest form of State inspection. Our iris are disease free, hardy and top quality. They are guaranteed true to name and to grow for you or will be replaced. However, we are not responsible for winter kill.

FREE GIFT - We want to be generous so will include a free gift iris with all orders, even at these low prices.

SPECIAL BONUS - On all orders postmarked before June 15, 1960, you may select iris worth 10% of your order as an extra bonus. So get your order in early, win the extra free iris and avoid the possibility of our being sold out, as some varieties are in short supply. Please list several extra varieties which we may substitute if necessary.

SALE PRICES - Note our low, low prices, many of them less than half of the regular retail prices.

GENERAL LIST

* Denotes Oncobreds

ZULU WARRIOR (Craig '54) Plicata, yellow stippled rose and purple, reblooms. H. M. '54.....	5.00

IRIS CULTURE

Iris are easy to plant and require a minimum of care. They will do well in almost any sunny, well drained spot. Spread the roots and plant so the rhizome is just barely covered with soil. The soil should be kept moist until the plant is well established, then will withstand drought and neglect, but respond bountifully to proper care and culture. Bone meal may be worked into the soil before planting, a small handful to each plant, or used as a side dressing once a year. Be careful if you use fertilizers, not to let it come in contact with the rhizome, as it may cause rot. Since Iris multiply rapidly, planting should be spaced from 12 to 18 inches apart to allow for proper ventilation. Divide them about every three years for best results.

Southern California Iris Society

MINIATURE IRIS Dwarf, Intermediate, Table and Border

We find a growing interest in these shorter and smaller editions of the tall bearded varieties. The shorter bloom stalks are useful in the rock garden and for border plantings. The smaller blossoms are ideal in arrangements. Most of the rhizomes are small but prolific with increase. Heights range from 11" to 28".

ANGELITA - 16" Table iris, creamy white with blue stitching.....	.60	PALTEC - 18" A dainty rare hybrid of sky blue40
BENTON OLD MADRID - 28" Orchid pink with light yellow haft.....	.25	PEWEE - 17" Pert little white table iris.45

BEGINNER'S SPECIAL

10 Different Miniature Iris 2.00
Our choice, assorted colors, labeled

LITTLE ONCOS

These are small flowers, mostly low growing, and have very small rhizomes. You will love them because of their strong onco characteristics and ease of growing. Withhold summer water and give them good drainage. Most of them multiply rapidly. Height 12" to 24".
